ABOUT US

Cathliro Commodities Ltd was founded in 2009 by Diana Yates and her husband Thomas Chan. Our primary focus is in the export of quality boutique beans, developing our local boutique market and creating value added cacao products. It is our mission to support women and youths in the cacao industry and provide a sustainable income for rural Solomon Islanders. As part of our mission Cathliro partners with donors to provide training and supply equipment to our local farmers.

Here at Cathliro, we work directly with our cacao farming communities. We travel long distances over geographically difficult terrains to purchase our cacao directly from farmers. To ensure the quality of our cacao beans, Cathliro tediously carries out the fermentation, sun-drying, grading and quality control of our beans.

Support Cathliro, support small cacao farming communities.

OUR MISSION

To build a successful company that exports cocoa and value-added cocoa products and develops the community by supporting local farmers with awareness, training, supply of tools, and a constant stream of income. We provide a platform by which farmers may earn a sustainable income and build a better future for themselves and their families by sustainably using the resources they have at hand.

OUR VISION

To be a leading Solomon Islands company in exporting high-quality beans and value-added cocoa products while promoting sustainable living for our farmers.

Our vision is captured by the proverb: *“Give a man a fish and you feed him for a day. Teach him how to fish and you feed him for a lifetime”* Lao Tzu, a Chinese Philosopher.
